List of Tables

Chapter 1

Introduction

This is where your Introduction will go. There will be examples of figures, tables, citations, and footnotes in this section. In the source files, there will be examples and how to get them to appear on the TOC, LOF, and LOTs.

1.1 Your first section

How do you feel so far? In these next few subsections we are going to be illustrating how to do these different things in LaTeX. Hopefully you will be able to replicate it whenever you need them. It is good to have all of your images (figures) in their own folder so you can keep some organization to your projects.

1.1.1 Table Example

In this subsection, we are going to give an example of a table and how one will look. There are many ways to make a table and customize them. Here is one example:

1.1.2 Figure Example

This is going to be an example of how to insert an image and it's caption. We can also reference it anywhere else in the document as well.
